INTRODUCTION

A bit more than two years have passed since the Token and Medal Society published its last membership roster roster. It is hoped that this one will be found to be an easier to use, more valuable successor to that previous effort.

This presentation, excepting what it is hoped will be a nominal number of errors, is complete and up-to-date through Aug. 31, insofar as our current membership and their addresses are concerned. So far as the presentation of collecting specialties are concerned, every effort was made to incorporate all submissions received, including those received after the announced June 1 deadline.

Once again, as in the last roster presentation, the scope of the collecting specialties listings have been significantly expanded beyond the categories previously detailed. The basic arrangement and enumeration of categories was developed by D. Wayne Johnson, who welcomes your criticisms and suggestions on the presentation.

The membership roster proper lists each member in alphabetical sequence by name and address, except for instances where omission of the address was requested, immediately followed by an enumeration of their individual collecting interests. All specialties submitted are listed in this section, whether or not they fit within the format presented on the directory survey form.

In the collecting specialties section of this roster, individual member names are arranged alphabetically under the surveycategories in which they expressed an interest. In some instances where sufficient collecting interest was expressed in "other" or miscellaneous categories, additional specialized areas have been incorporated in this roster.

The collecting specialties section of this roster also includes paid advertisements placed by member collectors and dealers interested in particular categories. This is a new roster innovation which proved to be more popular than had been anticipated.

In correcting some of the inequities noted by members in the previous roster, it is hoped that other snafus have not been substituted. In aiming to produce an even better roster the next time around, however, your criticisms of the current presentation are invited.

At the end of the roster of collecting specialities will be found an up-to-date presentation of the Token and Medal Society's current official Constitution and By-Laws presentations. It had originally been planned that several additional features, including a detailed history of the organization, would be included, but these had to be dropped due to time considerations.

FOREIGN MEDALS AND TOKENS

Those of you who are also interested in foreign coins and are on our mailing list or subscribe to World Coin News are already aware of the fact that we are in the process of reducing our inventory. I, myself, have been personally working toward attributing, describing, and otherwise preparing for sale the many numismatic oddiments which have accumulated over the past 31 years. In the conglomeration there is, of course, much "junk". There are also a number of important pieces. It is my intention, some time in the fall of 1979 to offer my tokens and medals for sale via a small auction. If you are interested in receiving the catalog when it is published, please send me your name and address and wait patiently. The catalog will be sent to you when it is issued. Thank you.

Owen & Schmidt represent over 2 decades of exonumia experience and concern for the collector. Proper grading, honesty and integrity are uppermost in the minds of authors and columnists George Owen and Joseph Schmidt. This attitude prevails when Owen and Schmidt purchase a single token or entire estate.

Quite simply, we wish you to consider us when disposing of your exonumia holdings. Owen & Schmidt consider "shopping around" when selling unnecessary, therefore we endeavor to purchase ALL, not just "scarce or rare" material.

A 500 volume exonumia library including over 250 mail bid sales with prices realized affords us the opportunity of knowing the full value of exonumia we purchase. One of the largest want list files in exonumia guarantees you a fair offer as well. Our personal attention awaits all who correspond with us — may we hear from you?

WHEN IT CAME TIME TO SELL... THE INCOMPARABLE WAYTE RAYMOND COLLECTION OF FOREIGN COINS...

NASCA WAS SELECTED TO DO IT!

Much has been said in the last few months in the numismatic press about, "Reasonable Commission Rates," "Competitive Commission Rates," "Very Low Commission Rates," etc., etc., etc. As we have previously stated, **NASCA's** commission rates are not just competitive — **they are the lowest, most favorable commission rates available in the United States.** Combined with these low commission rates are all of the fine attributes that the reputable auction firms in the country also offer. No one has a monopoly on quality catalogues, fine photography, world wide distribution of catalogues, excellent clientele, and so forth.

If you are as sophisticated as we think you are, you will make allowances for some of the rhetoric that appears occasionally and recognize that such apparently conflicting claims are essentially correct. After all, talent, research, financial resources, honesty and competent promotional and advertising staffs are not the monopoly of any one firm or any region in our business.

The same is true of each firm's ability to get top prices; for the numismatic market place is most assuredly international and collectors and dealers will pay as much for a desirable coin in one place as another, depending upon the market prices of the day.

REMEMBER THESE IMPORTANT FACTS

In the past 18 months NASCA has had the privilege of selling, at record prices and for the lowest commission rates in the country, numismatic material from the collections of the following valued consignors; **Professor M. Clinton McGee, The Rhode Island Historical Society, The Maryland Historical Society, The Bristol Historical Society, The Westerly Public Library, Mr. George Hatie — Vice President of the American Numismatic Association, The New England Obsolete Bank Note Collection (formerly the property of Q. David Bowers), the Wayte Raymond Collection, Sidney L. Olson, Robert Weiss, Mr. Thomas Fitzgerald,** not to mention material from the collections or estates of the late **Charles J. Affleck and Philip H. Chase;** and hundreds and hundreds of other consignors.

SPECIAL NOTICE
DATE CHANGED

Our *"LONDON SALE"* originally scheduled for June 11, 12 and 13, 1979 has been rescheduled to be held on July 17-19, 1979 at the Sheraton Hotel at La Guardia Airport in New York City. Also included in this sale will be a superb offering of United States coins as well as the previously advertised collection of choice foreign coins and bank notes.

SPECIAL NOTICE
BOUND COPIES OF WAYTE RAYMOND SALES AVAILABLE

Because of the overwhelming demand NASCA has taken its few remaining copies of the Wayte Raymond sales I - IV (December 1977 through December 1978) and had them hardbound in a deluxe edition including all plate sections and prices realized. These limited few copies are available on a first come first serve basis at $45.00 per copy postage paid (International orders require an additional $5.00 per copy for postage). If you wish to secure a copy of this most famous series of auction sales please fill out the coupon below.

SPECIAL NOTICE

NASCA will be holding a major sale of U.S. and World Coins in the Fall of 1979. Your consignments are eagerly solicited. We will be happy to receive them at the C.O.I.N. International Show (June — Los Angeles), Washington D.C. Show (July), or the American Numismatic Association Convention in July of 1979 at St. Louis. If additional information is needed please feel free to call us collect and mention that you are talking about a consignment to the operator or ship at once for immediate inclusion in this most prestigious sale.

WORLD TOKENS

Buying, selling, or trading,
Deal with America's Specialist!

As a full-time professional numismatist specializing in minor world coins, unusual coins, world tokens and world medals, I have acquired the knowledge, experience, library — and customers — that give me a competitive edge against all other token and medal dealers, in the U.S. or elsewhere. Furthermore, as an active collector of world exonumia, I am often willing to pay record retail prices.

Many dealers habitually send me their accumulations of "odd stuff." I have never had an offer refused. Why? Because I know that paying fair prices — even when the seller doesn't know the material — means I will continue to receive the tokens and medals my customers demand.

In the past year I've had tables at C.O.I.N. in Los Angeles, Chicago Int'l Coin Fair, Washington Int'l Numismatic Soc. Convention, the annual Philadelphia token & medal show, F.U.N., most major New York City shows, and other major east coast conventions.

MEDALS OF THE UNITED STATES MINT

THE FIRST CENTURY 1792 - 1892

by R. W. JULIAN

The Token and Medal Society proudly announces publication of R.W. Julian's long awaited book on U.S. Mint medals of the 19th century, a result of several years research into government and museum archives. The last work on this subject, written in 1878 by J.F. Loubat, covered some eighty official medals. Julian's work, in comparison, lists over 570 public and private pieces struck at the Philadelphia Mint during its first 100 years, 1792-1892. Destined to become a standard, this book is a must for numismatists with special interests in this area, and an indispensible reference for any medal collector interested in the history of the U.S. Mint or the development of American medallic art.

NOTES

The age of Aquarius is the age of the specialist.

Time was once when numismatists were generalists and covered all aspects of the numismatic field. Not any more. Now it's the dawning of the age of the specialist

Where specialized knowledge and experience are required, we are specialists in medals. Not antiques and medals. Or tokens and medals. Or coins and medals. But medals alone. We know the medallic field: medals for their beauty, their history, their value. And their interest to collectors.

Johnson and Jensen, two medal specialists, joined forces in 1977; combined to offer over 45 years experience in numismatics. Knowledge gleaned from over four decades of fervent collecting and from an ever-growing numismatic library. Experience gained from over ten years association with one of America's leading medal manufacturers. Hands-on experience and hard-earned specialized knowledge. Unmatched credentials.

Today numismatics is on the threshold of an exciting era and medals will play a vital part in the new excitement. We will have a part in the new era and invite you to be a part also. How may we help you?
